## A STATE-OF-THE-ART SYNERGY: TECHNOLOGY AND NATURE

Reflex Masks are like make-up for hair. They let your personality shine through with assertive colours or shade combos. Mix and match colours for a customized look you can change whenever you want, whatever your style.

## BLENDABLE COLORS

A refined mix of fashion color pigments:

11

## + 1 MIXING COLOR

The NEUTRAL Mask is ideal to dilute every single color and reach different shade levels or pastel results, or to be used alone to give intense luster and shine to the hair.

## SILK PROTEINS

With their film-forming action, protect hair by creating a special barrier which nourishes and preserves the natural level of hydration, for locks that are soft, flexible and shiny.

## ARGAN OIL

Also called the “Elixir of Eternal Youth” because it is rich in Vitamin E, Linoleic Acid, Omega 3 and 6 and Essential Fatty Acids which fight harmful free radicals, helps keep hair soft and hydrated, protecting it from external agents, too.

## MACADAMIA OIL

Is a highly effective ingredient for beautiful hair, especially if it is dry and damaged; thanks to its high Vitamin E content, it has a Keratin effect, encouraging cell renewal and delivering intense nourishment.

Thanks to the innovative MMR (MicroMirrorReflex Technology), the colored mask penetrates deep inside the cuticle, sealing it completely so light is refracted more directly. Instant results: pure highlights and vibrant colours for nourished and glossy hair.

I APPLICATION

# REFLEX

---

**EASY**

**FAST**

**SAFE**

Shampoo first, than wearing disposable gloves, apply on damp hair using a comb or brush to spread the product evenly on lengths and ends, avoiding touching the scalp. Leave on from 5 to 40 minutes according to the intensity of the shade you want to obtain. Rinse carefully and don't use the shampoo again.

The final color result varies according to the type and base color of the hair.

Do not apply the Black Color Mask on white hair.
